

## LOCAL MISCELLANY.

IMMIGRANTS PUT INTO THE STREETS.  
REFUSED ADMISSION AT CASTLE GARDEN.

The White Star steamship Britannia arrived here yesterday with 650 sick passengers aboard. She got up to New York at 11:30 o'clock in the morning. In the afternoon Emigration Commissioners met at the ship, and the immigrants were permitted to inspect and register the immigrants. To their surprise they found that the steerage passengers and their baggage had been landed on the pier. The commissioners refused to register the immigrants unless they were put back on the steamer. The superintendent of the pier said that the immigrants had mentioned on the arrival of the ship, after her pier, and had forced their way ashore. The commissioners told them that if they wanted the immigrants back on the ship they could order them back. The commissioners refused to do so, in order to allow their clerks to remain on the pier and to allow the immigrants to remain on the pier until returned to Castle Garden.

Then the porters at the pier drove the immigrants into the street with their baggage. The great excitement and confusion was the result and families were separated and children lost. The immigrants began to straggle along Westgate in the direction of Castle Garden. Some were seized upon by expressmen and boarding-house keepers and carried away to a dubious fate. Others struggled on, carrying their burden of luggage, and all afternoon were arriving in detachments at Castle Garden. They were not admitted as they had not been registered and there was considerable distress among them. In the stampede for the Garden two little girls became separated from their mother, but staggered on the ground. One of them fainted as she reached the gates. Superintendent came and took her inside and placed her in the hospital. A girl of sixteen came to the garden bending under a large trunk which she was carrying on her back. It was reported that a man was seized upon and robbed of \$30 while making his way down Westgate.

We have finished what we had nothing more to do with it. The fact will be reported to the collector of the port, and he will see that the law is set up within him. The law will not permit us to regis or passengers anywhere except on the steamer.

Commissioner Stark said:

DANGER FROM A TORPEDO EXPERIMENT.

The test made by J. L. Tuck of his submarine-torpedo-boat, at the foot of West Thirtieth-st., yesterday, came unfortunately in the death of one of the divers. J. B. Rice, the diver, who has always acted as helmsman in the boat, seemed unusually fearful, and it is supposed that while under the water he either fainted from fear or was overcome by the excess of air forced into his ear canals. The lead-helm assistant on the wharf immediately suspected that something was the matter and brought the boat to shore and took the diver from his perilous position. When brought out of the boat he showed no signs of life, but after a few moments of gas to breathe, and the right to let out of danger. Mr. Tuck did his part successfully, and has reason to fear that but his torpedo-boat will prove a success.

Mr. Tuck's statement of the matter is that the captain in armor in the pilot house was taken with an epileptic fit.

The boat is fish shaped, 30 feet in length, 7 feet in diameter, and weighs about 20 tons. It is made of strong iron plate, 1/4 inch in thickness. The boat is driven by a Brush electrical machine of 40 cells, and has reached a speed of seven knots an hour. It is entirely under water, and has an apparatus consisting of two sets of wheels, one on either side of the boat, by which the boat rises or sinks in the water. Two men in the interior control the electric engine. A diver, who stands in the well, evinced depression on the outside of the boat, manages the steering apparatus.

CHARLES BLANCK, of White Plains, was arrested yesterday at No. 537 Third-ave., New-York, on a warrant from Judge Metcalf, charged by Mrs. Wilhelmina Busch with abducting her daughter.

ATTEMPTED SUICIDE OF A YOUNG-MARIED WOMAN.
